

# **Executive summary 2 – Banking System**

## **Current progress**

1. Implement UI: APP UI, ATM UI, Account UI.
2. Implement basic functions: Log in/out, Change password/PIN, Query, Transfer, Withdraw, Deposit.
3. Use 'cell' in matlab and xxx\_data.xlsx to store the data.

## **TODO list:**

1. Bank staff system : delete the account, freeze the account...
2. Hide the password/PIN
3. The record of transaction.(optional)

## **Question:**

1. How many users or accounts should this system support?
2. Are there any strict requirements on the security?
